NOTEWORTHY PROJECTS

CUSTOMIZED PROCUREMENT SIMULATION

Crafted a gamified simulation to help Property Finder stakeholders grasp new procurement policies through real-world scenarios. The hands-on experience encouraged empathy for procurement roles and equipped teams to apply policy-aligned decision-making back at work.

SUPPLY CHAIN SIMULATION

Developed a competitive board-game-style simulation for SIG, tailored to mirror real supply chain complexities. With shifting variables and resource constraints, the experience sharpened participants' strategic thinking, risk response, and cross-functional collaboration across key supply chain functions.

GAMIFIED BIG PICTURE THINKING WORKSHOP

Led a high-energy workshop designed to stretch strategic thinking beyond day-to-day operations. Through gamified challenges and reflection-driven debriefs, participants zoomed out to connect their roles to broader business goals, sparking alignment, creativity, and long-term vision.
